

To whom it may concern;

My name is Alvis Otero and I am a Flight Attendant for NWA. I do not believe that cell phones should be use in flight. This compromises safety. It is hard enough to try to keep passengers from braking FAR'S. Now you may implement some waivers in usage of cell phones and if you just think about it for a second it makes absolutely no sense.

Not only will more gadgets be allowed but the cables that go along with it are very dangerous in case of an emergency. If you have an aircraft emergency and everyone on the aircraft is attached to headset on their cell phone, most likely they will not hear or listen to the safety announcements. They will be to concern to try to reach a love one and totally ignore the much needed safety announcements. In difficult times we as crewmember need the passenger's undivided attention. Please don't make our jobs more difficult and challenging than it already is.

Respectfully,
Alvis Otero
